FAREWELL CLASS OF '88

FROM: Shannon Cousins, Senior Class President

At last our final gathering together has come. We have been through some harsh changes. In spite of all the talk of splitting us up we somehow managed to stay together and James Lick was not so bad. Sure there were disappointments and hard times, but we pulled through on top. All the good times will never be replaced and my favorite moments will be those that were spent with you. I hope I have given you what you all have given to me: the best of times!

FROM: Manny Dull, Student Body President

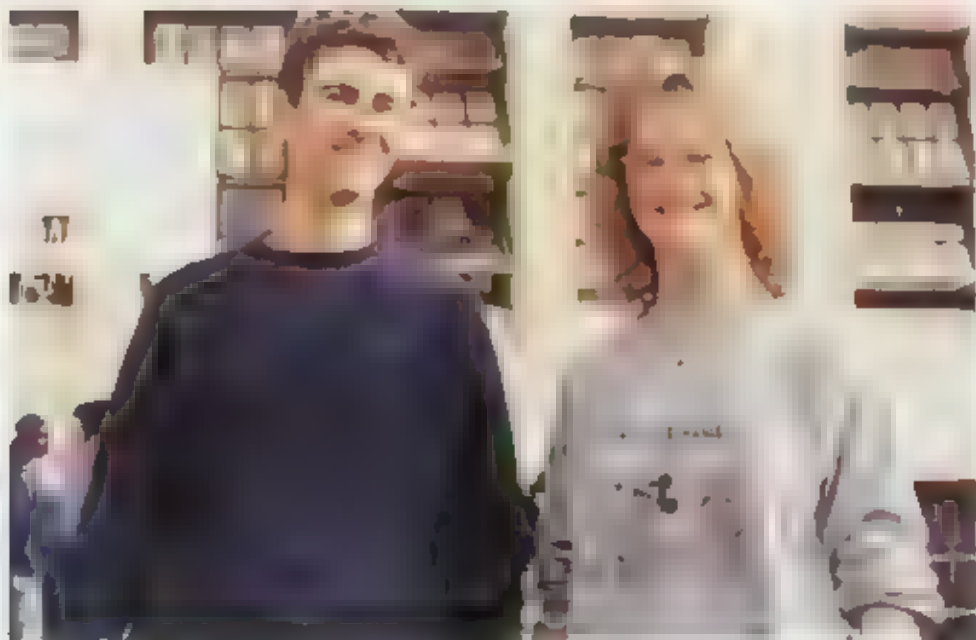

McAteer survives! We survived the move out of Poly, and we survived the move out of 555 Portola. Because of these conditions, McAteer students have become stronger. We know how to stand up for our rights. We know how to fight bureaucracies effectively. We know that anything is possible for us, if we want to work for it. This is the most important lesson that we have learned at McAteer. We will graduate from McAteer, but the McAteer spirit and strength will never leave us.

PRINCIPAL'S MESSAGE

CLASS OF 1988

Well, you made it. It's nearly graduation time and despite all the difficult circumstances and the grim predictions, the Class of '88 joins the list of successful McAteer classes still all together. There were times last August when we all wondered if the school could hold together, but it did and you did. Of course, there were some "fun" moments like finding your homeroom the first day, working in the dark for a time, dodging the rain drops between the bungalows, trying to find a parking place, and getting through the mob on the steps to the bungalows. Yet you handled it all with a positive spirit that was really inspiring. I have always believed that young people need some guidance and have much to learn, but in a real sense they have much to teach their elders about enthusiasm, making the best of things, and the value of humor in difficult times. You have confirmed that belief as no other class I have known in more than 30 years. Your accomplishments have been real. Your enthusiasm in adversity commendable. Your commitment to what was fair and right admirable. In the days when Latin was in fashion, it used to be a tradition to say to graduating classes "Ave atque vale!" — "Hail and Farewell!" I have known no other class who deserved that parting salute more. Hail for courage and spirit. Farewell for we expect much of you and wish much for you. Ave atque vale!

M. L. King Essayists: Hensley, King, Cowen

that it could have gotten to know you
later. I don't want to be taking you about the
weather in the old and past. But things don't
always work out the way we want them to in
life. You seem like a person of distance and
responsibility who is just another pretty face
but you are not. I think you are a person
and it doesn't seem like it is going to turn out
like that. I don't know but try your best to make it
what you want. I think you are a well matured
person about life and everything else. So.

Wings

To Ursula,

A nice person
and away interesting friends
It hope to know you for time to come,
Take care and stay healthy.

Have a great time in ISRAEL.
Watch out for strange
camels! I'll miss you very much
come back soon, you're beautiful
Love you very much!

Dear Ursula,

I'm glad you went to
Mac but I'm hella scared
you're gonna cry. Every
single god person is
leaving? Oh well, I
guess I'll live through
it. Have a great life &
maybe I'll see you on
haight & sun'm.

Dear Ursula,
The time that I've now
has been pretty good - really
don't have a lot to say but
I do

Gwath Watson
